

Joe Colvin
Vice-President/President-Elect of National ANS
Nuclear Progress - Seizing the Opportunities
Thursday May 20, 2010
[Innsbrook Technical Center](#) - Richmond, VA

"Nuclear Progress - Seizing the Opportunities"

Mr. Colvin will speak on the progress of nuclear energy, the tremendous opportunities we have today, and how we need to work to seize upon these opportunities and bring them to fruition. He will discuss the current status of new nuclear in the US, the political and public realities of nuclear, the challenges and potential barriers, our opportunities for addressing the challenges and barriers, and the important role and critical contributions of ANS in enabling these initiatives to succeed.

Mr. Colvin is a senior chief executive officer with extensive political, public, and advocacy background in association management, coupled with over 40 years of nuclear energy operational and engineering experience. He has served on multiple corporate and not-for-profit boards of directors, and currently is the President Emeritus for the Nuclear Energy Institute (NEI). He is a current Director for the American Nuclear Society, Cameco Corporation, American Ecology Corporation, Foundation for Nuclear Studies, and the Southeastern Universities Nuclear Reactor Institute for Science and Education.

In addition, he was President and CEO of NUMARC, predecessor to NEI, and has served in key roles for the Institute of Nuclear Power Operations. He served a twenty year career as an unrestricted line officer in the U. S. Navy, reaching the rank of Commander. Mr. Colvin received a B.S. in Electrical Engineering, magna cum laude, from the University of New Mexico and graduated from the Naval Nuclear Power School and Harvard Business School Advanced Management Program. He is a registered Professional Engineer in the State of Hawaii.
