

Gene Grecheck.

Incoming President of the American Nuclear Society

"Challenges and Opportunities: Nuclear Technology and ANS"

May 21, 2015 at 5:30 p.m.

At [Dominion Innsbrook Technical Center](#), Glenn Allen, VA

Topic:

Mr. Grecheck has been visiting a number of local sections the past few months exploring some of the issues the nuclear industry is facing as well as the national American Nuclear Society.

Speaker Biography:

Mr. Grecheck has over 39 years experience in operations, engineering and licensing of nuclear power stations. His previous positions have included Plant Manager of North Anna, Site Vice President at Surry, Vice President of Nuclear Operations at Millstone, and Vice President of Nuclear Support Services for the Dominion Nuclear fleet of 7 units. Mr. Grecheck was most recently responsible for complete engineering support for Dominion's fleet of seven nuclear units, including design authority, engineering programs, station engineering, modifications, and project management. He was also responsible for the licensing, engineering and project management for the proposed new North Anna Unit 3, as well as the Dominion fleet response to new NRC requirements stemming from the Fukushima accident.
