Paul Phelps, Director of Nuclear Projects, Dominion Energy

“An Overview of the Subsequent License Renewal (SLR) Process for Nuclear Power Plants”

Revolution Golf and Grille in Williamsburg, VA

1430 High St, Suite 706

Williamsburg, VA 23185

Speaker Biography

Dominion Energy Nuclear submitted an application with the Nuclear Regulatory Commission for renewal of Surry Power Station’s operating license for an additional 20-year term on October 16, 2018. Surry was selected as Dominion Energy’s lead plant for SLR and was the first in the industry to announce its intent to seek the extension of the current 60-year license to 80 years.

Paul has held numerous leadership positions at Kewaunee and Surry power stations and at the Innsbrook corporate offices over the course of his 27 years with the company. He holds a Professional Engineering License with the Commonwealth of Virginia and a Senior Reactor Operator Knowledge Certificate from Surry Power Station.

He earned a Bachelor of Science degree in Electrical Engineering from Clarkson University in Potsdam, N.Y., and took post graduate courses in Computer Engineering at Syracuse University, and the University of Texas, and in Electrical Engineering at the University of Virginia.
