

VIRGINIA ANS MEETING

WEDNESDAY, MAY 31

5:30 pm at Dominion Innsbrook Auditorium
Social to follow at Capital Ale, Innsbrook

PRESENTATION TOPIC

Small Modular Reactors - Delivering Reliable and Clean Energy through the Deployment of SMRs in the Commonwealth

Hear how and why SMRs present a unique opportunity to expand Virginia's nuclear portfolio. Gain key insights into anticipated load growth, highlighting the need for around the clock, carbon-free power generation. As part of Dominion Energy's commitment to provide clean, reliable and affordable electricity, hear how the company is reviewing SMR technologies and potential sites.

Free and Open to all that RSVP!

Must RSVP by using the QR code or link below
